## Cultivating Creativity: Fun & Informative Sessions to Inspire & Encourage

*Creativity is the lifeblood of every successful individual...*

Calling all educators, librarians, and curious grown-ups... come learn, think, write, create and have fun with me. Getting creative is good for everyone and good for the world! Really.

My 2-hour "Cultivate Creativity" seminar and workshop is designed for educators, but can be tailored to your particular group needs. It includes an informative slide

presentation that explores the overall concept of creativity and how to have it, the components of creative writing in the classroom, the various forms of literacy, the opportunities for teaching in a web 2.0 world and more. Includes a question and answer period, a hands-on writing and art workshop, tons of resources, as well as a book signing and, if desired, a Dar's ART STORE with educator's discount. Let your creative spirit loose!

Call or email me for information and availability. I look forward to hearing from you. ~Dar Hosta

### Dar's Creativity Credo

I will try new things.  
I will not put myself down.  
I will be a learner.  
I will be a teacher.  
I will be an artist of my craft.

*Creativity is a state of mind.*
